

Woodlands Primary - Annual Governors Report 22/23

I am pleased to present the Governors' Report for Woodlands Primary and Nursery School 2023/24

Throughout the year, the governing body have been diligently focused on routine tasks such as revising school policies, analysing pupil performance data, managing school finances, overseeing staffing, and maintaining the school building. These efforts have ensured that our students receive the best possible education in a safe and nurturing environment.

I am proud to share that our school underwent an OFSTED inspection, and the report reflected the collective dedication of our staff, pupils, and parents. Your active participation during the inspection was greatly appreciated.

As a grandparent and governor, I had the privilege of participating in various school events, but the most rewarding experiences were the three residential trips: Arthog (Year 6) for outdoor pursuits, London (Year 5) for cultural experiences, and an outdoor pursuits trip (Year 4). These trips provided our pupils with valuable life lessons and unforgettable memories.

Our pupils displayed commendable resilience, humour, and politeness during these trips, while our teachers demonstrated remarkable professionalism and care, working around the clock to ensure the children's well-being and growth.

I am proud to be associated with Woodlands Primary and Nursery School and thankful to the entire school community for their commitment to excellence.

Best regards,

Dave Jackson

Vice chair of Governors, Woodlands Primary and Nursery School
